HUNTINGTON'S WILL IS MADE PUBLIC.

Bulk of the Vast Estate Is Given to the Widow---Relatives Generously Remembered.

NEW YORK, Aug. 24.—The will of C. P. Huntington was made public today. It gives \$1,000,000 in trust for Princess Hatfield during her life, the principal to go to her issue at her death. Five hundred thousand dollars in trust is given for the benefit of Mrs. Huntington, the widow, for life, afterward for the benefit of Archer M. Huntington for life. Two-thirds of the Southern Pacific Railway stock is to be given to Mrs. Huntington and one-third to Henry Edwards Huntington on condition that no part thereof shall be sold during the lifetime of any except with the consent of both.

The Fifty-seventh street and Fifth avenue residence in this city, together with all articles therein, is given to Mrs. Huntington for life, afterward to be given Archer M. Huntington. Two hundred and fifty thousand dollars is given in trust to Archer M. Huntington, the capital to be paid to his issue. Two hundred and seventy thousand dollars is given for the benefit of Harriet S. Huntington, Elizabeth Purdy, Susan Porter and Allen Gates, in portions of \$50,000 each; \$30,000 for the benefit of C. H. Sammis and \$20,000 each for the benefit of Eleanor Loveland and Frank Pardee. Various other specific bequests are made.

Mrs. Huntington, Charles H. Tweed and Isaac E. Gates, Mr. Huntington's brother-in-law, are made executors of the will. All of Mr. Huntington's pictures are given to Mrs. Huntington for life, afterward to Archer M. Huntington for life, and at his death to the Metropolitan Museum of Art of New York, absolutely.

FULL TEXT OF RAILROAD KING'S WILL EXTRA SESSION IS NOT LIKELY.

The S. P. Stock Goes to Wife and Nephew.

NEW YORK, Aug. 24.—The Huntington will is in twenty-three articles, is dated March 12, 1897, and witnessed by Maxwell Evans, Andrew K. Vandevanter and George E. Downs.

The first article directs the payment of debts. The second disposes of all furniture, bric-a-brac, books, etc., to Mrs. Huntington, absolutely, and gives all his pictures to Mrs. Huntington for life, after death to Archer M. Huntington for life and at his death to the Metropolitan Museum of Art of New York City, absolutely.

Article third gives the New York City residence to Mrs. Huntington for life, at her death to Archer M. Huntington, absolutely, or in default of issue by him to Yale University, absolutely.

Article fourth gives to Mrs. Huntington's sister, Mrs. Elizabeth Purdy, and to her daughter, Eleanor Loveland, absolutely, a dwelling house now occupied by them in Queens, N. Y.

Article fifth gives \$500,000 in trust for Mrs. Huntington for life, at her death to Archer M. Huntington for life, and at his death to his issue, absolutely.

In the sixth section \$500,000 is placed in trust for Archer M. Huntington and issue.

The seventh article gives \$1,000,000 in trust for the Princess Hatfield, the capital to go to her issue, or failing issue, to such persons as she may direct by will.

The eighth article disposes of the Southern Pacific stock, belonging to Mrs. Huntington, Mrs. Arabella D. Huntington, the widow, is given two-thirds of the stock and Henry Edwards Huntington, nephew, one-third. This portion of the will provides that the shares bequeathed to Arabella D. Huntington and Henry Edwards Huntington shall not, nor shall any part thereof, be sold or disposed of during the lifetime of either of the legatees except with the consent of both such legatees or of the survivor of them. The will then says:

"I would suggest to the said Henry Edwards Huntington and Arabella D. Huntington that sales of such portion of said stock as they may receive under the foregoing provisions of this, my will, shall not be made except substantially pro rata with sales of stock of said company belonging to the successors in interest of my former associates, Mark Hopkins, Leonard Stanford and Charles Crocker, but this suggestion is not to be in any wise or equitably operative or binding upon my legatees or to restrict in any wise their free action in dealings with such stock, but is merely made for the purpose of indicating the mode and manner in which I should have preferred to make sales of such stock if I had lived, and in which I should prefer that such sales be made after my death, but notwithstanding the suggestion the legatees of my said stock are to be at liberty to deal with the same according to their own judgment except as limited by the terms, conditions and limitations hereinbefore expressly prescribed in respect to the disposition thereof during the lifetime of the said legatees or the survivor of them."

The ninth section gives one half of the residue of the estate to Mrs. Huntington, the widow.

The tenth article gives \$700,000 in trust as follows: Harriet S. Huntington, sister-in-law; Elizabeth Purdy, sister; Susan Porter, sister; Ellen Gates, sister; \$50,000 each; Collis H. Sammis, \$30,000; Eleanor Loveland, niece, \$20,000; Frank Pardee, nephew, \$20,000.

The eleventh article makes the following specific bequests: To his sister, Susan Porter, \$20,000; to his niece, Helen M. Huntington, \$50,000; to his nephews, Edward H. Dunbar and George S. Dunbar, \$20,000 each; to his nephew, Edward Porter, \$20,000; to his niece, Caroline D. Holladay, \$20,000; to his niece, Leonard Porter, \$20,000; to his niece, Adeline Dunbar, \$20,000; to his niece, Susan Huntington, \$20,000; to Isaac E. Gates, \$100,000; To the widow of his deceased nephew, Charles H. Tweed, \$50,000; To his friend Charles H. Tweed, \$50,000.

The twelfth section gives \$100,000 to the

Cabinet Sees No Reason for Calling Congress Together.

WASHINGTON, Aug. 24.—The Cabinet was in session today until nearly 2 o'clock. At its close the members were more reticent than usual as to what transpired. It can be stated, however, that this Government has so far received no official or well authenticated information that the Russian government has declared war on China, or that it is her immediate purpose to do so.

The subject of an extra session of Congress, it was stated, was not mentioned at the meeting, and it can be stated on the authority of a member of the Cabinet that under present conditions an extra session is altogether improbable.

Hampton Normal and Agricultural Institute, Hampton, Virginia.

Article 13 gives \$25,000 to the Chapin Home for the Aged and Infirm, New York City.

Article 14 provides that the residue of the estate is to be given to the testator's nephew, Henry Edwards Huntington. Articles 15 and 16 give certain legal powers to the executors.

Article 17 authorizes Mrs. Huntington as executrix, or such attorney or substitute as she may appoint to join with Charles F. Crocker and Sullivan & Hubbard or their respective attorneys or personal representatives in executing or endorsing commercial paper. (This power is terminated by the death of Charles F. Crocker and the dissolution of Sullivan & Hubbard.)

The articles following are purely legal, the 22d providing that any beneficiary contesting the will shall forfeit his share in it.

None of Mr. Huntington's securities is mentioned by name except his Southern Pacific stock. The other bequests are made in money, but it is also provided that the executors may give to the beneficiaries instead of money securities to the par value of the sums named. The executors are empowered to dispose of practically all securities and real estate except the Southern Pacific holdings.

LIST OF HUNTINGTON'S PROPERTY HOLDINGS.

Associated Press Dispatches by

The Tribune's Special Leased Wire.

NEW YORK, Aug. 24.—The Times this morning prints the following:

Interest in Mr. Huntington's property and how it will be divided reached an acute stage yesterday. It is generally conceded that Mr. Huntington's total equities in the thirty odd corporations in which he was either an officer or a director, and in the score of interests in which he was represented and his immediate real and personal estate amount to not less than \$20,000,000. Some Wall street estimates place the Huntington fortune at \$100,000,000, on the condition that his chief interests are placed by his will in the hands of trustees and for a term of twenty years.

Those who should have large knowledge of Mr. Huntington's affairs figure that he left behind in one way or another from his interests were enormous. That in the Southern Pacific Company has been run up as high as \$45,000,000. It is said to be about \$12,000,000. In the Pacific Improvement Company, capital \$5,000,000, which owns the Hotel Monte at Monterey worth \$2,000,000, and Arcadia, at Santa Monica, and the inn of Castle Crag, in the upper Sacramento Valley near Shasta, Mr. Huntington's interest is computed at \$2,500,000. The Huntington interest at Newport News cannot, it is claimed, be less than \$6,000,000. In the Pacific Mail Steamship Company Mr. Huntington's interests were about \$2,000,000. His share in other corporations was not less than \$1,500,000.

In New York City, at Throggs Neck and on Raccoque Lake Mr. Huntington's real estate was worth not less than \$5,500,000, and at San Francisco he had property worth about \$1,500,000. His various parcels of improved and unimproved property in several States of the Union are estimated to be worth from \$1,000,000 to \$1,500,000. These esti-

WAKEMAN IS CHARGED WITH FRAUD

Sensation in the Yarde-Buller Matter.

Breach of Trust Alleged By Greenebaum as Guardian.

W. B. Greenebaum, guardian of Mary Leah Kirkham Yarde-Buller, filed an affidavit in the Superior Court today in which he makes charges of a most sensational character against E. H. Wakeman, who has held Mrs. Buller's property in trust.

He states "on his information and belief that said E. H. Wakeman has concealed, embezzled and conveyed away a large amount of money derived from said trust property, the exact amount of which affiant is unable to tell, but which he avers to be a large sum."

Greenebaum was appointed Mrs. Buller's guardian on August 26, 1899. Previous to this, her property had been transferred to Wakeman in trust. Greenebaum claims that he notified Wakeman of his appointment and for a time he received from him the proceeds of the property.

He states that this continued until last May, when Wakeman refused to deal with him further. He asserts that Wakeman, contrary to his trust, paid money during May and June direct to Mrs. Buller and ignored her guardian entirely.

He managed to endure this, but when on August 8th he again reminded Wakeman of his duty and received the following letter he appreciated that there was something radically wrong and decided to bring the matter to the attention of the court:

San Francisco, August 11, 1900.

Dear Sir: Your favor duly received yesterday. I regret to hear that you are not satisfied with my conduct. I will say that some days ago Mr. W. B. Greenebaum sent me, and calling upon him, he showed me a document acknowledged before a notary public by Mrs. Yarde-Buller, requesting me to transfer the trust to Mr. Chapman. Acting on the advice of my attorney, I have done so. Therefore, in relation to the trust, I am no longer concerned. I am sorry to see Mr. Chapman, who, with Mr. Garfield, is acting as her legal adviser.

E. H. WAKEMAN.

Greenebaum avers that Wakeman deeded the property away with the full knowledge that Mrs. Buller had been declared incompetent and therefore had no authority to direct him.

The court is asked to proceed against Wakeman in the manner provided by the Civil Code "with respect to persons charged with concealment or embezzling or conveying away the effects of a decedent."

Judge Greene has cited Wakeman to appear September 4th and explain his actions.

GEN. CHAFFEE BELIEVED TO BE IN TIEN TSIN.

Associated Press Dispatches by

The Tribune's Special Leased Wire.

WASHINGTON, Aug. 24.—The War Department received a cablegram from Gen. Chaffee, dated Tien Tsin, giving a list of casualties there. War Department officials construe this as indicating that General Chaffee returned to Tien Tsin from Peking.

It is stated at the War Department that the reason for thinking that General Chaffee is at Tien Tsin is because the reports signed by him giving the casualties are dated at that place.

It is also stated at the department that nothing else has been heard from General Chaffee indicating that he is at Tien Tsin.

BARBAROUS TREATMENT OF MISSIONARIES.

Associated Press Dispatches by

The Tribune's Special Leased Wire.

LONDON, Aug. 24.—While the commanders of the allied forces are waiting for instructions from their governments as to what to do next, which, in the present condition of the telegraphic service, will probably take ten days, the work of repairing the railroad between Peking and Tien Tsin is progressing slowly and the transportation of supplies by boats on the Pei Ho river is improving.

A dispatch to a news agency from Shanghai, dated August 23, says eight survivors of the fourteen English missionaries who started together from Shan Si have reached Hankow after suffering frightful barbarities.

AMERICAN MARINES GO TO TIEN TSIN.

Associated Press Dispatches by

The Tribune's Special Leased Wire.

WASHINGTON, Aug. 24.—The following cablegram was received this morning at the Navy Department from Admiral Remey:

"TAKU, Aug. 22.—Bureau of Navigation, Washington: The cable is open now to Taku. All troops from Hancock landed. Marines have gone to Tien Tsin. Private Arthur A. Woods, Marine Corps, accidentally drowned Tong Ku on the night of the 21st."

MORE FIGHTING AT TIEN TSIN.

Chinese Attempt to Cut the Allies' Communications a Failure.

LONDON, Aug. 24.—A Dispatch from Chefoo, dated Thursday, August 23, says there has been further fighting near Tien Tsin. The Chinese sought to cut the line of communication, but were driven back with small loss on the part of the allied forces.

Official advices from Peking received at Tokio say the allies burned Prince Tuan's residence.

According to a dispatch from Hongkong, dated August 24th, there are serious disorders in the south. Turbulent mobs are devastating portions of the provinces of Fu Kien and Kiang Su. It is added that a Mandarin with 300 Chinese soldiers left Amoy August 23d to restore order. Japanese blue-coats landed at Amoy, August 23d.

TERRIBLE STORM AT CAPE NOME

Bodies of the Dead Strew the Beach.

SAN FRANCISCO, Aug. 24.—The Bulletin today prints the following special dated Seattle, Wash., August 24th:

"A terrific storm raged at Nome August 27th. It wrought disaster along the water front and as a result the beach is lined with wreckage and stranded vessels of all descriptions. According to a water front man, out of sixty-eight steam launches only five remained afloat, and of seventy-two barges but seven are riding the sea, the others having either sunk or drifted ashore. Twenty-four bodies were washed ashore and taken to the Morgue for identification.

Among them was the remains of J. W. Beatty of Alameda, Cal., who formerly worked for Shreve & Co., jewelers, of San Francisco. Five dead bodies were washed ashore at Topkuk, three miles north of Nome, the mouth of Nome River, and eight in front of Nome Camp. Three, twelve miles below Bluff City, and two below Topkuk.

The pest house on Egg Island was destroyed by fire on August 9th, three patients being removed safely.

A tale of disease, death and suffering among the Eskimos in the North that almost beggars description is told by Guy N. Stockslager, who has been directing a relief expedition sent out by the Government. Stockslager has returned from York and reports the natives dying by wholesale, dozens of dead bodies lying around unburied. At Teller City the sick natives killed the medicine man of the tribe in the vain hope that the act would appease the evil spirit who was sending such dire affliction on the people. Thirteen deaths were reported at Teller City in one day.

The military officials made two important rulings August 17th. One was an order directing all squatters on Nome Beach on the sixty-foot strip to move out. Another was an order excluding squatters from the military reservation. The orders caused great consternation among the squatters.

A survey party sent out by the Government is making an examination of the geological conditions of the Nome country and are now in the interior. They will survey the country as far west as Cape York, returning to Nome about the middle of September.

CARPENTER DIES FROM EFFECTS OF A FALL.

Richard Souza, who fell from a scaffold Wednesday in Hay & Wright's shipyard, died from his injuries today at his home in San Leandro. Souza fell a distance of twenty feet and at the receiving hospital his injuries were pronounced serious, but not fatal. He was removed to his home in San Leandro, where he continued to grow worse. It is thought the projecting timber on which he struck in his descent caused the internal injury which proved fatal.

St. Louis' Population.

WASHINGTON, Aug. 24.—The population of St. Louis, according to the count of the twelfth census, just completed, is 575,238, an increase during the past ten years of 123,483, or 27.33 per cent.

Runaway on Broadway.

A horse belonging to E. P. Vandercook the real estate agent became frightened at Thirteenth and Broadway this afternoon about 2 o'clock and raced madly down through the confusion of bicycles, street cars, trucks, and other vehicles crowding that thoroughfare, as far as Tenth street when he fell breaking one of the shafts of the buggy to which he was attached. Beyond this and broken harness there was no damage.

MILLMEN WILL TAKE AGGRESSIVE

Are Planning to Build Mill of Their Own.

One More Chance to Be Given to the Owners.

The Building Trades Council and Millmen's Union will, it is announced, today submit to the Millowners' Association a proposition that is practically a repetition of the demands made by the men five months ago, to employ union men union hours. This proposition, it is expected, will be rejected, but it will be submitted to put the millowners on record.

After its rejection the Trades Council will be in a position to take action. Just what this action will be has not been officially announced, but it is known that arrangements are being made to give the eight-hour mills all the assistance in the power of union labor. It is announced that the "fair" mills in San Francisco will at once begin running three eight-hour shifts and will be supplied by all the experienced men necessary from the striking millmen.

On this side of the bay the Alameda county eight-hour mills will arrange to run two eight-hour shifts and possibly three. It is hoped by this means to relieve the situation and furnish contractors and builders with "fair" millwork. If this arrangement cannot supply the demand it is said that the Trades Council and millmen will at once inaugurate the work of building a co-operative mill that will be one of the largest institutions of the kind in the State. The Trades Council in San Francisco and this city claim to have ample funds to carry out the proposition.

With reference to the statement of the millowners that they had been bothered for years by shop delegates and demands of the union J. H. Mullen, business agent of the local Trades Council, says the statement is absolutely false, as the Millmen's Union has not been organized over one year and the only demand made on the owners was that of five months ago, the refusal of which caused the present trouble.

The Building Trades Council issued the following statement last night:

"San Francisco, August 23, 1900. "At a special meeting of the Building Trades Council held on August 19 the suggestion of the Builders' Association that the contention between the millowners and the millmen be submitted to the Merchants' Association for arbitration was accepted, but since that time the Millowners' Association has refused arbitration, and we are now in a position to demand of the Builders' Association that the contention be submitted to the Merchants' Association for arbitration with such course.

"The Building Trades Council has done all that was possible to do towards an amicable settlement of the difficulty, and, forced by the unyielding attitude of the millowners, is now obliged to take action in accordance with the principles involved in the issue. In taking this step it sincerely regrets the effect which it will have upon the community, and it steadfastly hoped to avoid any serious complications, but, after having resorted to every other means to reach a settlement of the matter, the millowners arbitrarily refuse to do so, it becomes incumbent upon us to enforce the eight-hour day, and to that end the Building Trades Council, in regular meeting assembled, declares all mills which were notified six months ago that on August 18 the eight-hour day would be requested and are now working over eight hours per day to be 'unfair,' and hereby refuse to handle, place or work on any

THREW A BABY UNDER A TRAIN.

Terrible Charge Made Against a Mormon Missionary.

Associated Press Dispatches by The Tribune's Special Leased Wire.
ST. LOUIS, Mo., Aug. 24.—Elder Aaron S. Hawkins, missionary of the Church of Jesus Christ of Latter Day Saints, is under arrest at the Four Courts accused of pushing Clarence Fuhrer, 5 years old, to his death beneath a moving train at Mount Vernon, Indiana, at an early hour today. He was arrested as the Louisville and Nashville train steamed into the Union Depot this morning.

Elder Hawkins, who lives at Miamas, Concord county, Iowa, was returning from seven months of proselyting in Georgia, when he is said to have become the instrument of Baby Fuhrer's death. John M. Pierce of Mount Carmel, Illinois, and Irving H. Grays of Evansville, passengers on the train, witnessed the injury to the child. Conductor P. M. Albin states that these passengers were willing to testify that Hawkins deliberately hurled the baby from the moving train to the platform and that they saw the little fellow roll from the platform under the wheel, which passed over him. Hawkins will be held here subject to the orders of the police of Mount Vernon.

Mrs. Amelia Fuhrer, Mount Conductor Albin's train at the Indiana 20 miles from the scene of the tragedy. She had with her two small children, Clarence and a younger sister. She was on her way to Mount Vernon, Indiana, to join her husband. At Mount Vernon she arose to leave the train, and here it was where the Mormon came on the scene. Her story is as follows:

"The woman was leaving the train. I stepped out on the platform while the train was slightly in motion and lifted the child down to the platform. It was unsteady on its feet and rolled off the platform. I jumped on the sleeping car as it swung past, and the only of the train. I did not push the child off."

"BUILDING TRADES COUNCIL."

The trades in this city and San Francisco affected by the above resolution and that will refuse to handle unfair millwork or work on a building in which it is used are the following:

Amalgamated Wood Workers' Amalgamated Sheet and Metal Workers' Amalgamated Society of Carpenters, Carpenters' Local Union, No. 616 (carpenters), Carpenters' Local Union, No. 10 42 (millmen), Cement Workers' Union of California, Bricklayers' and Engineers' Union, International Brotherhood of Electrical Workers' Local Union, Glaziers' Union, Granite Cutters' Union, Laborers' Protective Association, Mantel, Grate and Tile Setters' Union, Marble Cutters and Finishers' Union, Metal Buffers and Polishers' Union, Metal Buffers' Union, Painters' Union, Paperhangers' Union, Patternmakers' Union, Plumbers Union, Bricklayers' Association and Cementers and Polishers.

The local Building Trades Council and Federated Trades have adopted the following resolution:

"Resolved, That all union men be directed to purchase nothing in any store on Labor day, (Monday, September 3), nor to get shaved in any barber shop on that day."

Union labor men are circulating a Labor day closing agreement among merchants in the hope of arousing public interest in an event which promises to be the greatest of the kind in the history of the city.

TROOPS ARE TO BE KEPT IN CHINA.

Boys in Blue Still Needed There.

Chinese Would Think Withdrawal a Retreat.

WASHINGTON, Aug. 24.—The question of the withdrawal of the United States troops from Peking or Tien Tsin or Taku has been seriously considered by the President and his advisers. A great deal of pressure has been brought to bear upon the Administration to take this step, but after mature deliberation it has been determined that the negotiations for the settlement of the questions growing out of the disturbances in China must take place in the Chinese capital, and that while these negotiations are pending and until they are completed it will be necessary for the United States force to remain in the capital. While it is recognized that a withdrawal of forces from Peking might be hailed with satisfaction, it is said that the moral effect in China and on the Chinese would be bad if interpreted by the Chinese as a retreat.

Plans are being made to furnish the United States troops in Peking with supplies. The Department has ascertained that the Taku port will be open until November 15th, and before that time it is expected that most of the supplies can be shipped to Taku. The railroad between Taku and Tien Tsin is in good condition, but some estimate that it will take nearly three months to repair the railroad between Tien Tsin and Peking.

Meanwhile the Pei Ho River and the canal can be utilized for the transportation of supplies. The commissary and medical stores which were shipped on the transport Meade and destined for China have been ordered to be unloaded at Nagasaki and sent to Taku on the transport Indiana.

Dispatches were received from General Chaffee today, but only those giving casualty lists were made public.

Admiral Remy advised the Navy Department that the Taku cable was working. The State Department received the following cablegram from Consul Johnson:

"AMOY, Aug. 24.—Mob burned Japanese temple this morning. Marines landed to protect Japanese officials. Restoring order."

"JOHNSON."

The State Department's dispatch from Consul Johnson at Amoy that marines, presumably Japanese, had landed there may cause a diversion to that section. A Japanese landing at Amoy has more than usual significance, from the fact that Amoy is within what is known as the Japanese "sphere of influence." This "sphere" is said by officials to be similar to that under which Great Britain exercises an influence in the Yang Tze Valley. It embraces the province of Fu Kien, the principal centers being Amoy and Fuchow. As a "sphere" it is chiefly important to Japan, as it lies opposite to the island of Formosa, which Japan took from China as the result of their late war.

The published report that Russia has declared war on China undoubtedly is disturbing to the Administration, inasmuch as such action would greatly complicate the situation and probably paralyze the President's efforts to bring about an adjustment. This apprehension is somewhat intensified by the fear that Germany may also contemplate a declaration of war. No information to that effect has reached the Government, but it is regarded as not altogether impossible that in view of the recent reported utterances of the German Emperor, measures of the most drastic character may be in contemplation. What action this Government would take under these circumstances is not known, but it has been suggested that the President may at once ask for a conference of the powers with a view to arriving at some basis for a settlement of the questions involved without resorting to war.

It is pointed out that the President now has at his command a far larger appropriation than could possibly be utilized within so short a time as the next meeting of Congress in December even under most extraordinary circumstances. The diversion of the troops now on the Pacific from China to Manila is said by a Cabinet officer to be sufficient proof that there will be no war with China, so far as this country is concerned, unless diplomacy has failed to secure such reparation and indemnity as this Government may demand on account of the imprisonment of Minister Conger and our legationaries and citizens and the property losses they have sustained during the present crisis. The conclusion is, therefore, that an extra session is a remote possibility, except in the event of a radical change in the situation.

Associated Press Dispatches by The Tribune's Special Leased Wire.
HONOLULU, T. H., Aug. 24.—The banking house of Bishop & Co. has announced that it will take up the Hawaiian government 6 per cent bonds, which constitute part of the \$1,000,000 debt assumed by the United States, but for which Congress failed to make appropriation, through an oversight. The taking up of the bonds will do much to relieve a stringency in the local money market. Congress is expected to make provision for taking up the bonds at its next session.

Dr. Charles H. English has sued Ex-Governor Lorrain for damages for alleged breach of contract said to have been entered into by the doctor and Her Majesty while the latter was in Washington. The doctor says he was engaged to act as the Queen's physician up to next November for \$100 per month and a bonus of \$5,000.

The medical man attended the Ex-Governor regularly up to a month ago, when he says he was dismissed without cause. He wants the courts to reimburse him.

Governor Lorrain and his wife, Mrs. Brown have made a visit to the island of Hawaii to investigate the matter of opening for settlement under United States laws between two and three thousand acres of land. It is situated in North Kona and is rich and at a high altitude.

The fatal fire in a rooming house at the recent visitation of bubonic plague took place on the 15th of this month, when the Board of Health ordered the fire department to destroy the buildings at Ka-kako which were used as pest house. The buildings were the ones in which all the patients were treated.

Two of the many suits against insurance companies as a result of the losses incurred in the Chinatown fire have been decided by Judge Sullivan. Yee Wo Ching & Co. were awarded \$100,000 against the Trans-Pacific Insurance Company, Limited. A suit by the same firm against the Magdalen Fire Insurance Company was dismissed.

In the former case the policy did not contain the clause absolving the company if losses are caused by civil authority. Appeals will be taken.

The labor situation on the plantations is still a matter of much discussion and factors are being weighed. Reports from those who have gone to the States to investigate the securing of another labor supply to take the place of the Japanese, who are being sent to the States, are being received. Some strange ideas as to their rights.

THE FIRST SLOT MACHINE TAKEN.

B. Berovich, the cigar dealer at Ninth and Washington streets, put his nickel-in-the-slot machine in the street this morning, and then beat the patrol wagon, winning in a walk. At the station he was arrested by the police, and the machine was taken to the police station. The machine was found to be a "slot high" or a "royal flush." Policeman "Nick" Williams is also accused. Berovich's story is about as follows:

"It was generally understood that in order to make a test case of Chief Hodgkins' slot machine, I was to put a machine in operation this morning. I was to be arrested by the police, and I was to be taken to the police station. I was to be charged with violating a law. Why should an exception be made in my case? If he escaped from the arresting officer he would have no charges against him instead of one. We had no report of his arrest, and could not receive him."

Chief Hodgkins and Captain Wilson said that they had reported the machine to the police, and that they had been ordered to receive it. They had no report of his arrest, and could not receive him.

STUDENTS MAKE "ROUGH HOUSE."

U. C. Freshmen Wreck Harmon Gymnasium Today.

UNIVERSITY OF CALIFORNIA, August 24.—The Class of '01 held their first meeting of the term today. They issued a challenge to the Freshmen for a rush to take place next Friday afternoon. According to the terms of the challenge the rush will be governed by the same rules which govern the Freshman-Sophomore rush last spring. This morning at 10:15 the Freshmen class to the number of about 50 gathered in Harmon Gymnasium to organize. It was not many minutes until a large crowd of Sophomores arrived in a body, and a struggle they succeeded in breaking the north door of the gymnasium. The Sophomores had just succeeded in entering the gymnasium in great numbers when the large fire hoses were turned upon them. This commenced one of the biggest "rough houses" ever seen at the University. Chairs and tables were overturned. The gymnasium was flooded and two classes were only stopped from having a fight by the arrival of President Wheeler.

The President ordered all Sophomores out of the gymnasium. The place was too much of a wreck to hold a meeting of the male members of the Freshman class, and the Sophomores were ordered to leave. The Sophomores were ordered to leave the gymnasium. The Sophomores were ordered to leave the gymnasium.

BRAVE OFFICER NICHOLS DEAD.

Associated Press Dispatches by The Tribune's Special Leased Wire.
SAN FRANCISCO, August 24.—Special Policeman George F. Nichols, who was shot by a burglar last night while on duty on Sansome street, died today at the Harbor Hospital.

He leaves a wife and three children in poor circumstances.

Although the detectives are at work on the case, no clue suggesting the identity of the burglar has been found.

WILL CONTEST IS FINALLY SETTLED.

George Babcock, who as administratrix of the estate of William N. Martin, was defendant in a suit brought by Grace E. Martin as executrix of the will of Martin, has today won her case in the Superior Court. This action removes all obstacles to the compromise between Dr. Martin's son and Mrs. Jennings to whom Mrs. Martin bequeathed the property.

The contest of Mrs. Martin's will entered by Irving M. Martin has also been dismissed.

EXCITEMENT AT AKRON IS OVER.

Peck Brought Back and Sentenced to Life Imprisonment.

Associated Press Dispatches by The Tribune's Special Leased Wire.
AKRON, Ohio, August 24.—There was no trouble in the city during the night, the streets being practically deserted except by soldiers who patrolled all the thoroughfares in the business section. The authorities have secured the names of about thirty rioters, and will undoubtedly take into custody some of the leaders of the mob before night.

At a conference of city, county and military officials today it was decided to retain the troops here until tomorrow morning at least.

Excitement was caused this morning by an extra edition of a local paper, with headlines announcing that Peck might be brought back to Akron. The newspapers rushed about yelling, "All about Peck coming back." An officer took one of the boys to headquarters, and the commissioner McMullan promptly telephoned the paper to call in its boys. Mayor Young reiterated the order as soon as he was informed of the matter. Peck is not coming back to Akron for some weeks at least.

Mayor Young's order closing the saloons is being rigidly enforced. Two saloon keepers have been arrested for disobeying the order. Police headquarters have been opened in the central station. City prisoners are locked up in the county jail by special arrangement.

Today the sale of the Engineer's Department was opened in the City Hall. Its contents, including many valuable papers and records, were found in good order. All the plans and profiles of the city streets and improvements were destroyed, however.

The death of the Davidson girl is hourly expected. Edward Yonick, though badly injured, is slightly improved today and has some chance for recovery. Mayor Young, Sheriff Kelley, Prosecutor Vanhook and Chief Clerk are confident that all excitement is over.

The train carrying the negro Peck arrived here at 3:30 P. M. A carriage was waiting at the railway station and Peck was quickly bundled into it. In three minutes the Court House was reached and Peck was arraigned before Judge Nye. The indictment was read. Peck stood up and pleaded guilty. He declared he had nothing to say except that he threw himself on the mercy of the court. The court then sentenced Peck to life imprisonment in the State Penitentiary. Troops were on guard at the railway station and all about the route to the Court House. There was no demonstration when Peck was taken to a closed carriage to the State Prison, crossing of the Cleveland, Akron and Columbus Railway and placed on board the train in charge of Sheriff Kelley and taken on to the State Penitentiary at Columbus. As the train started Peck was brought into the city, sentenced and sent on to Columbus, but very few people knew what had transpired and there was no crowd at the railway station either when the train arrived or departed.

Lilla Rhoda Davidson died at the City Hospital at 2 o'clock this afternoon. She was shot in the head while in her mother's arms during the riot Wednesday night.

PRECAUTIONS AT CLEVELAND.
CLEVELAND, Aug. 24.—Sheriff McClellan held a conference with the judges of the jail in this city throughout the night as a result of the rumors that a mob from Akron might attempt to storm the place and get possession of Louis Peck, the negro, who is alleged to have assaulted Christa Maas. But officers closely watched all this country and no attempt was made, but the mob failed to appear.

CLEVELAND, Ohio, Aug. 21.—This afternoon Peck, the Akron negro, was driven rapidly to the Union Railway station, where he was placed on a train. It was said to be the intention to take him to a small town a few miles this side of Akron, or to Akron, where the Governor convened the Grand Jury at Akron this morning and an indictment was returned against Peck, who will plead guilty to the charge of criminal assault and be immediately sentenced.

A telegram from a correspondent on board the train bearing Peck and the Akron official stated they were bound for Akron, that it has been arranged for the militia at Akron to meet the train and that the court will be ready to commence the trial of Peck the moment he arrives. Peck will doubtless at once plead guilty to the charge against him and receive his sentence. He may be taken to Columbus tonight.

UNIVERSITY NEEDS RELIEF.

Badly Crowded By the Great Increase of Students.

UNIVERSITY OF CALIFORNIA, Aug. 24.—The great increase in the number of students at the University is giving the authorities of the institution a great deal of worry as to making room for them all. More than 2,200 students have entered the academic colleges this year, and all the classes are badly congested, while the class rooms are wholly inadequate. An appeal to the Legislature will have to be made this winter to relieve the present conditions.

FOSSILS FROM OREGON.

Prof. John C. Merriam, who conducted the University summer expedition to the John Day river fossil beds in Oregon, is bringing home some rare fossils out of the rock brought home by the expedition. Among them is the skull of a saber-toothed tiger, a huge feline that in the ancient geological epoch roamed about the shores of the great lake that covered Eastern Oregon before the lava flowed in and buried the country. The saber-toothed tiger was one of the largest and most powerful flesh eaters of that period.

CADETS TO PARADE.

About 250 University cadets will take part in the Admission Day parade in San Francisco. They will be offered as follows: Acting major, Captain C. L. Carlson; captain and adjutant, R. H. Curtis; aide to grand marshal, Captain R. A. Smith; grand marshal, Captain R. A. Smith; commanding company B, Captain Walter B. Bakewell; commanding company C, Captain John W. S. Butler; commanding company D, Captain Charles W. McConaughy; commanding signal detachment, Captain H. C. Melone.

The following have been appointed sergeants in the University Cadets: E. T. Zook, W. H. Durbin, C. R. Parker, L. King, C. H. Aspland, A. R. Russell, H. J. Johnson, E. P. Gardner, W. D. Gundelander, L. Arce, C. G. Bailey has been appointed corporal.

ARRANGING CLASS MEETING.

The sophomore class held a meeting yesterday afternoon and decided to challenge the freshmen to a rush. The freshmen are more than willing, and the date of the rush will probably be fixed next week.

CHORAL SOCIETY.

The Choral Society of the University has elected the following officers: President, Miss Alice M. Smith; secretary, Miss Evelyn Russell; treasurer, Miss Louise Davis; and an installation banquet will be held Tuesday evening in East Hall, at which the guests of honor will be President and Mrs. Wheeler, Professor and Mrs. J. H. Senger, Mr. and Mrs. David Loring and Miss Loring.

RECEPTION TO CO-EDS.

A reception was given yesterday afternoon in Siles Hall to the young ladies of the freshman class by the Young Women's Christian Association.

MAP OF BERKELEY HILLS.

Professor Andrew C. Lawson and Charles Palache have just completed a geological map of the Berkeley hills, after several years' work.

Berkeley News in Brief.

BERKELEY, Aug. 24.—The jury in Justice of the Peace Edgar's court failed to agree yesterday morning in the trial of Charles Steinert, the mill striker accused of having killed William Gruening, an employee of Nicholas Brothers. The majority of the jurors are said to have voted for conviction. The trial will be resumed next Monday.

A hundred workmen with teams went to work yesterday afternoon on the repairs to be made by the Contra Costa Water Company at the Berryman reservoir. The company will spend \$40,000 in rebuilding and strengthening the big water basin. An adjacent hill will be removed to be used in forming the new dam.

The entertainment last Saturday evening in the Berkeley Opera House for the benefit of the volunteer firemen's parade was a financial success. The firemen cleared \$223. A dance will be given in Siles Hall on the evening of September 1st, by which the sum is expected to be raised, with subscriptions already in, to \$300.

Bank to Get Its Money Back.

Judge Ogden decided yesterday in the suit of the Oakland Bank of Savings against the County of Alameda that bonds held by the bank are not assessable. The ruling follows a recent Supreme Court decision in a test case from San Francisco. The bank sued to recover \$125,000 taxes on bonds, paid under protest.

Arnold Must Go.

The State Department at Washington has forwarded to the British Embassy extradition papers for Julian T. E. Arnold, wanted in England and now held at the Alameda county jail. He is a son of Sir Edwin Arnold and is charged with embezzlement.

THE OPERATION FAILED TO CURE.

FRESNO, Aug. 24.—Louis Palumbo, a native of Italy, aged 35 years, died last night from cancer of the stomach. His was a notable case by reason of having had a portion of the stomach removed in the French Hospital in San Francisco to cure him of the cancer. The case was considered a surgical triumph. For nearly a year after the operation he was able to labor and digested his meals as if the stomach was whole. Surgeons, however, do not consider the operation on the stomach a cure for cancer.

M'KINLEY'S TRIP IS UNCERTAIN.

WASHINGTON, Aug. 24.—It is stated at the White House that the situation regarding the President's proposed trip to Chicago is the same as on yesterday. KNOWLAND IS RENOMINATED. The 47th Assembly District Convention in Alameda.

ALAMEDA, Aug. 24.—The Forty-seventh Assembly District Convention met last evening at the rooms of the Republican Club to nominate Joseph R. Knowland for Chairman. The County Committee called the meeting to order, and on Dr. Tisdale's motion, E. H. Marwedel of Fruitvale was selected as chairman. F. E. Browning was made secretary.

The roll-call of delegates showed W. B. Hinchman and J. P. Dives absent. Proxies were held by J. B. Lanktree for W. A. Clarke, E. K. Taylor for William Roberts and C. L. Tisdale for E. E. Hunt.

Senator Taylor made the nominating speech, reviewing the work of the party in the past and its present principles. He paid a glowing tribute to Mr. Knowland as the best Assemblyman the district had ever sent up, and touched upon the mark made by him last session.

Frank Storer seconded the nomination on behalf of the delegates of Brooklyn and Eden townships, and upon Colonel Babcock's motion Mr. Knowland was placed in nomination by acclamation. The candidate responded to calls and said in part:

"Nominating with practically no opposition entails greater responsibilities than when there is such opposition, for it bespeaks greater confidence. When I entered office two years ago I determined that what I lacked in experience should, as far as it was possible, be made up in faithful attention to duty. I strove to do this duty as it was interpreted to me. Tonight you have again given me your trust. This I accept and promise to the best of my ability such faithful service as will best advance the interests of the district and the State."

J. B. Lanktree, Frank Storer and J. W. Riley were selected as members of the County Central Committee, and J. C. Bates Jr., E. K. Taylor, Frank Storer, W. B. Hinchman and Phil Kierman as the Purify of Elections Committee.

The chair appointed as committee to fill vacancy Columbus Bartlett, Senator Taylor and Frank Storer.

Senator Taylor offered resolutions endorsing the administration of President McKinley and the Philadelphia platform and pledging the support of the convention to McKinley and Roosevelt and to Victor H. Metcalf, and upon their adoption an adjournment was had.

REPUBLICAN CLUB ELECTS DELEGATES.

ALAMEDA, Aug. 24.—Following the meeting of the convention last night the Republican Club held a short meeting. President Anthony occupied the chair.

The following were chosen as delegates to the State Convention at Santa Cruz on September 5th: David Hirschfeld, J. M. Gallup, E. K. Taylor, J. B. Barber, Samuel Franks, Hervey Darneal, John Seebeck and A. R. Hamlin.

Alameda Personals.

ALAMEDA, Aug. 24.—Mrs. H. Krusi and children have gone to Los Gatos.

D. E. Dyer has gone to San Rafael.

Mrs. M. Sadler and her daughter, Miss Mae Sadler, went to San Rafael today. They will remain at the Hotel Rafael until Monday. Miss Sadler will take part in the tennis tournament.

Alameda News Notes.

ALAMEDA, Aug. 24.—Sheriff Rogers has appointed P. W. Turnbull as a deputy.

The Society of Young Folks will elect officers next Wednesday evening.

Property transfers include land on north side of Jackson street west of Mound street, by B. Benedict to John N. Thorson; lot on east side of Park street south of Clement avenue, E. P. Geiter to A. and M. Boromeo; and portions of lots 1 and 2 block 2, land adjacent to Encinal, by trustees of J. A. Leonard Company to San Francisco Savings Union.

A German reading for the benefit of Mrs. Nico Bech-Meyer took place this afternoon at Mrs. Gelderman's home on Lafayette street.

An inquest was held Wednesday night upon the body of John Greeny, the aged man found dead on the premises of Charles Laver of High street. The jury's verdict showed that death had been caused by fatty degeneration of the heart.

Alexander Rodgers, a colored man living on Buena Vista avenue near Oak street, was arrested yesterday on two charges of disturbing the peace. He had his wife arrested for battery, and Frank Norfiet, a bootblack, on a like charge.

Mrs. Rogers pleaded guilty this morning. She was fined \$5 by Judge Morris. Norfiet pleaded not guilty, and was tried this morning.

Democratic Delegates.

ALAMEDA, Aug. 24.—At its meeting Wednesday evening the Central Democratic Club chose the following delegates to the State Convention to be voted for at the primaries on Saturday: At large, R. M. Fitzgerald, M. F. Tarpey, C. Kjesell, A. F. Huff, W. E. Scully. For delegates to the county convention the following were selected: C. T. Stoddard, A. F. St. Sure, J. F. Commers, Frank Bartlett, Frank Dodd, O. Lubbock, E. E. Roberts, A. Kidd, Charles Adams, William A. Gunn, F. C. Eisen, Max Glas, J. B. Smith, D. Healey, Otto Schroeder, R. Greathouse and Dr. J. W. Roberts.

President Stoddard resigned his position.

BULLETINS OF THE BIG FIGHT. Naughton Will Tell the Story of the Battle.

W. W. Naughton's singed writings on the Sharkey-Fitzsimmons fight tonight will be posted at the Alameda County Bureau of the Examiner, 1070 Broadway. The difference of time between the occurrence of the event chronicled and their posting will be but a few seconds. The Examiner bulletins will also be read from the stage of the Dancy Theater tonight by Mr. Landers Stevens.

ESTATES OF THE DEAD IN PROBATE COURT.

Johanna J. Shiman has filed her final account as executrix of the will of John L. Shiman, who died June 3, 1898. The report shows receipts to the amount of \$18,453.71 and disbursements of \$12,300.88, leaving a balance of \$6,152.83. The executrix reports the following amounts due the various heirs: Johanna J. Shiman, \$2,694.42; Arthur C. Shiman, \$2,694.42; Louis G. Shiman, \$2,694.42; W. Shiman, \$2,694.42; J. Shiman, \$1,347.21. There are also a number of shares of stock in various corporations are promissory notes to be distributed.

Mrs. Minna Leiding has filed her final account as executrix of the will of Christine Leiding, of Alameda, who died August 1, 1899, showing receipts of \$2,233.15 and a balance of cash on hand of \$5,338.30. The deceased also left real property in Santa Barbara county and in the town of Sonoma, several promissory notes and mining stock. The executrix asks that the estate be distributed to her as provided in the will.

Mary Elizabeth Alves has applied for letters of administration upon the estate of Frank Calhoun, who died on July 31st, 1900. The estate value is \$3,000. The heirs are the children of the deceased: The petitioner, residing in Brooklyn township; Philomena Williams of San Leandro; Joseph Calhoun of Centerville; Leonora Calhoun of Brooklyn township; John Calhoun of Calaveras county; Julia Constat of Centerville.

THANKS MAY BE THEIR ONLY PAY.

It is possible, if the contention of County Expert Bullock is carried, that the position of member of the County Board of Education will become an empty honor without any other compensation than the thanks of the people.

The members have been allowed \$5 a day whenever they were in session, but Colonel Bullock has unearthed a Superior Court decision that the \$5 a day is not a legal charge against the county, and for the present he is holding up the bills of the county educators.

The bill of the members of a decision rendered by the Superior Court of Los Angeles, said Expert Bullock, "that says that these fees are not legal charges against the county. I have sent for the full decision, but it looks very much as if the members will have to be contented with mileage and have to go without fees in the future. The county superintendent is, under the law, entitled to his compensation of \$5 per day, but that is all. The bill of the members varies from \$30 to \$75 per month. Last month the members met nearly every day for a week, but that is very unusual, and was made necessary because they were going over the course of study for the reopening of the schools. Ordinarily there are not more than four or five meetings a month."

THE OPERATION FAILED TO CURE.

FRESNO, Aug. 24.—Louis Palumbo, a native of Italy, aged 35 years, died last night from cancer of the stomach. His was a notable case by reason of having had a portion of the stomach removed in the French Hospital in San Francisco to cure him of the cancer. The case was considered a surgical triumph. For nearly a year after the operation he was able to labor and digested his meals as if the stomach was whole. Surgeons, however, do not consider the operation on the stomach a cure for cancer.

M'KINLEY'S TRIP IS UNCERTAIN.

WASHINGTON, Aug. 24.—It is stated at the White House that the situation regarding the President's proposed trip to Chicago is the same as on yesterday. He still hopes he will be able to go in time for the parade on Tuesday and the banquet on Wednesday. The opinion is expressed, however, that his going is a matter of doubt.

FRIDAY, AUGUST 24, 1900.

The news that the kissing bug has appeared at the Atlantic seashore is an indication that the men are not up to their speed.

Fitzsimmons says there is no such thing as the corker blow. He evidently forgets that that is the kind of knock-out punch John L. Sullivan got.

Kentucky Prohibitionists have nominated a candidate for Governor. Although that is an inland State, the nominee in question will be provided with a watery grave next November.

The spectacle of a Democrat seeking to be elected Governor of New York by calling attention to the crimes of Tammany has a peculiar element of humor in it, but Boss Croker fails to see any fun in the situation.

Complaints are being made by some of the army officers in Manila about the rations they are receiving, their principal grievance being the lack of butter. What can be the matter with the goats that are attached to some of the regiments as mascots?

The Democrats have gone through the form of naming a State ticket in Wisconsin. In November the Republicans will go through the form of defeating it. Wisconsin promises to increase her Republican majority of four years ago. It was over a hundred thousand then.

Chicago leads Philadelphia by over 400,000 inhabitants, and there is joy by the lake, but the old city of New York is 400,000 ahead of Chicago, and Greater New York contains more than double the population of the Illinois metropolis. There are some big towns in this country.

The frequency of the reports that gold is being shipped from New York to London need not create the slightest financial apprehension, for the conditions under which it is going are all in our favor. Formerly these gold shipments meant that the balance of trade was against us, but now they are simply in payment of the bonds we recently purchased, and we will not only get our money back later on, but lots more with it in the form of interest.

Apparently the allies are trying to catch the Empress for the purpose of making peace with her. There is nobody with whom to negotiate terms. Li Hung Chang keeps pleading for a cessation of hostilities, yet confesses his inability to hold the Boxers in check. He protests that the imperial government is not responsible for the continued outrages, but evidence accumulates that the uprising was directly promoted by the Empress' counselors, and that the imperial troops made common cause with the so-called insurgents in attacking the foreigners and missionaries. Under these circumstances the allies can only proceed in the matter of restoring order and punishing the atrocities without reference to Li Hung Chang or the fleeing Empress.

A Pennsylvania jury has just awarded the plaintiff \$2,500 in a breach of promise case. The amount of damages fixed is important as establishing a legal standard of valuation for certain relations in embryonic matrimonial contracts. The plaintiff testified that the defendant had courted her continuously for twenty-two years, visiting her on an average of three times a week during that period and promising to marry her each time. On this showing the defendant lied to the plaintiff on 2,550 specific occasions. In the damage award the recalcitrant lover is charged a trifle less than six bits for each lie. From the tenor of the dispatches sent from China we infer that there are men who would undertake to tell as many lies in twenty-two days for less money.

UNIVERSITY APPROPRIATIONS.

The action of the Alameda county legislative candidates in pledging themselves to work for liberal appropriations for the University will meet with the unqualified approval of every voter in this part of the State. The necessity of united thought and sentiment on the part of our representatives in this matter has been shown in various sessions at Sacramento. Whenever our people there have worked together we have wrested from the unwilling hands of other and less-favored districts that proper recognition of the State's greatest institution that is due. Let us work together again.

The institution at Berkeley needs every cent that it can get. You cannot run an advanced University on the basis of a blacksmith shop. Liberal education costs money, and let it be distinctly understood that we must bear the cost or else take the only alternative and shut up shop. The University ranks as a first-class educational institution. California cannot afford to have anything else bearing its name. So Berkeley will ask for large appropriations this year and Alameda's Senators and Assemblymen will stand shoulder to shoulder in fighting a fight to see that it gets them.

Alameda's own pride is concerned. The University is in this county and we must help it to get everything that is necessary for the continuance of its successful career.

ANOTHER COMPETING LINE.

California is evidently about to soon enjoy the benefits of a second competing line. Although during the past twelve years the many proposed overland roads from Southern California to Salt Lake have been merely constructed on paper, this time the revival of the rumor carries with it strong evidences of truth, and the association with the enterprise of the name of Senator Clark of Montana is assurance that there is money enough behind the proposition to carry it through.

As outlined by the managers of the Terminal Line, a short stretch of road by which connection is obtained with tide water at San Pedro, the plan is to build from Los Angeles, through San Bernardino and over the desert via Utah to Salt Lake City. That such a route is practicable is beyond question, for the initial surveys years ago show that the natural mountain passes give an easy grade almost the entire line, and the knowledge that the work could be built with such comparative ease is what has always kept the project more or less to the front.

From the standpoint of dollars and cents the proposed investment would be an excellent one. There would not be much local business at first between San Bernardino and Salt Lake, but development would come fast, especially in the rich Utah valleys that stretch down to the California line. In the desert, too, that occupies almost the entire northeastern part of San Bernardino county, there are rich mines and other mineral deposits that with opportunities for transportation would quickly develop into a rich industry, so when the local travel between San Bernardino, Los Angeles and San Pedro is also taken into consideration it can be seen that there is a fertile field for railroad business. It is in the overland trade, however, that the principal prospects are contained. A number of transcontinental lines already reach Salt Lake, and the through business would be huge. The Burlington line in particular is anxious to have a California cut-off owing to the many feeders it possesses through the rich agricultural and manufacturing sections of the middle West, and sooner or later would undoubtedly have invaded the Pacific States on its own account had not an opportunity such as the present one arisen.

California's interest in the project is a vital one. The more connections we can make with Eastern railroad systems the faster the State will build up, for with more markets for our products, increased and improved freight and passenger service, the lowering of rates and the many other benefits that are derived from healthful competition, our progress will be swift and thorough. Every railroad system, too, with which we are affiliated will, in its search for business, advertise the State far and wide, and that item alone is a big one. Senator Clark's millions will therefore be turned into a channel that means much to us if the present plans are consummated, and it is to be sincerely hoped that nothing will occur to deprive us of the rich prize that is apparently within our reach.

QUEER PEOPLE AND QUEER POLITICS.

A good deal more is being made of the letter written to Aguinaldo by "Dr." Montague R. Levenson than the man or incident merits. The letter is exactly what might have been expected from Levenson. He was never right in his life. It is his mission to be wrong. Half crank and half dreamer, he has always been a chronic kicker against the established rules of society, and the comic interest his antics excite rather overbalances the indignation his revolutionary ideas and actions are calculated to arouse.

But Levenson has his uses in this campaign. He serves to point a moral. He illustrates the fatal and fundamental weakness of Bryanism. His adherence to the cause of the Nebraska theorist is at once a certificate of the latter's untrustworthiness and a proof that he cannot succeed. Whatever Levenson espouses is sure to be wrong and certain of defeat. He indicates the will of the majority by opposing it. His objection to any proposition is prima facie evidence of its soundness, and his advocacy of any cause is proof of its weakness and unworth.

Levenson is not unknown in California. He was among the social misfits tossed to the surface by the waves of the Kearney excitement. By turns he was lawyer and physician, and in politics, as in law and physics, he was a violent opponent of everything that had been tested and accepted by the mass of rational men. He attempted to get into Congress on a strained and technical construction of the law, having caused half a dozen votes to be cast for him as a basis for the contest. He was a bore in Washington and a nuisance to the newspapers.

As a doctor he has practiced everything but medicine according to the established schools. He has contumaciously fought vaccination and vivisection. He has denied the right to quarantine and isolate those afflicted with contagious diseases. In short, he is so peculiarly constituted that he regards as tyranny every wise regulation or law by which society seeks to preserve itself and further the general welfare. He is a kind of mental itch—something that it is good not to have, and something that all normal persons carefully avoid.

Levenson cannot hurt the United States and he cannot help Aguinaldo. But he is symptomatic of the many social disorders which find Bryan a common rallying point. Like the "Doll's Dressmaker" in "Our Mutual Friend," the Bryanite organization is rickety—"it's weak in the back and its legs are queer." It is afflicted with spasms, loss of memory, cramps and mental epilepsy—in brief, is an aggregation of the politically lame, halt and blind. It naturally attracts all those who are a little "off" in their ideas, or who are wedded to crotchets and fads. "Dr." Levenson is rightly located in this aggregation, and his letter to Aguinaldo is only one of the many evidences of its "queerness." The whole concern is queered.

Owing to the many alarmist yarns about McKinley's life having been threatened by anarchists, he is to have a body guard of 400 men when he visits Chicago next week. The Windy City residents will now have an opportunity to climb to the dizzyest of social heights all at once, for they will be able to truthfully state that they are entertaining the President and all of the 400.

The tables are completely turned in Peking. Instead of the Chinese attacking the legations, their own imperial palace is now besieged. All this talk about millions of yellow bogies men swarming over the world doesn't seem to amount to anything, for they are more inclined to run away than do ought else when the other nations come around looking for a fight.

Society's latest fad back East is to have harvest home festivals in their mansions. The rooms are decorated with hay, vegetables and so forth, all right, but that is about as far as the fashionable care to go, for corned beef and cabbage, pork and beans, pumpkin pie and other bucolic delicacies are a little too much for their French-dinnered stomachs.

The Santa Fe is going to have a telephone line constructed between Oakland and Point Richmond. It hasn't taken the competing road long to get around and do its share of wire-pulling.

Berkeley carpet beaters have taken to the courts. The case with which they can raise lots of dust ought to make them good things for the lawyers who have them in tow.

The American invaders of Peking are said to have captured the courts of the Forbidden City. That looks as if our boys are doing politics there already.

The door in China is more than open nowadays. It has apparently been torn right off its hinges.

J. Seawell and daughter, Miss Lulu, of Folsom have been visiting in Oakland.

Miss Laura Prather, who has been visiting at the power house near Visalia, has returned home to her father's place in this city. While visiting in the mountains she went through King's Canyon, Giant Forest and ascended Mount Whitney. She enjoyed her trip very much and returns to Oakland with glowing accounts of the region in which she visited.

Mrs. Jesse Hoyt of Oakland is visiting Santa Rosa, friends.

Miss Smart of Oakland is the guest of Mrs. Winship.

Miss Emma Buck, who has been visiting relatives near Vallejo for several weeks has returned to Oakland.

AS OTHERS SEE US.

The new census will give California California another Congressman. The State will be re-districted and Solano may be separated from Alameda, which county will probably have sufficient population to elect a Congressman alone. There would be a chance for a Vallejo man to sit in Washington.—Vallejo Chronicle.

The Bay Counties Power Company, now engaged in pushing two parallel lines from the north and south fork of the Yuba River to Oakland, will deliver 900 horse power at that city and expects to be pouring electricity into Alameda county and way stations before the end of the year. According to the San Francisco Post, it has water facilities to generate 30,000 horse power even in the driest seasons. It is capitalized at \$5,000,000.—Los Angeles Times.

Those industrious exchanges which belabor the Oakland policeman for clubbing a wooden Indian should understand that Oakland is progressing. The general inclination of policemen seems to be to club real live pale faces, who are innocent of offense even though they are taking her guardians of the peace off on Indians, and wooden ones at that, which is a distinctly humane move.—Alameda Argus.

One S. C. Phipps, an instructor in astronomy at Berkeley, has squealed about 200 hundred and fifty dollars he paid Shyster Chretien to secure him a place in the San Francisco schools. In other words, he paid to bribe the School Board and in spirit he is a briber, and as such is not fit to teach in the public schools or the University of California.—San Jose Mercury.

The Oakland Tribune now prints its editorials in wide columns, just like a really truly city paper. It is to be hoped, however, that the Tribune's puns will not cast larger shadows of gloom because they appear in wider columns.—San Leandro Standard.

Prof. and Mrs. Langley of Oakland are reported to have just returned from Mendocino county, with the skin of fifteen rattlesnakes. Here is a rich mine for the Sunday sup. editor. Fifteen rattlesnakes ought to furnish a delicious article for Sabbath reading.—Argus.

HOSTETTERS
CELEBRATED
No one need suffer from Indigestion or Dyspepsia. The Bitters is a sure cure for these, as well as for Nervousness, Sleeplessness, Flatulency, or Malaria. Fever and Ague. All druggists sell it.

Going to bed to tumble and toss and dream; to pursue in vain the phantom sleep through long weary hours and rise to a new day tired and unrested. That is the way with many a woman, who is tormented by the aches and pains resulting from female weakness, and other diseases of the delicate organs of woman. Dr. Pierce's Favorite Prescription was made to cure just such cases and it does what it was made for. It heals ulcers, inflammation, dries debilitated drains, cures female weakness, strengthens the body, soothes the nerves and enriches the blood. It gives lasting strength for the day and sound sleep for the night.

For three years I suffered continually," writes Mrs. L. J. Dennis of 825 East College St., Jacksonville, Ills. "I sought relief among the medical profession and spent much money, but without success. I built me up until I weighed one hundred and fifty-six pounds—more than I ever weighed before. I was so bad I would lie from day to day and long for death to come and relieve my suffering. I had internal inflammation, a disagreeable drain, bearing down pains and such distress every month. But now I never have a pain—do all my own work and am a strong and healthy woman. Thanks to your medicine."

Biliousness is banished by the use of Dr. Pierce's Pleasant Pellets.

anchoy condition is now very apparent, even from the Alameda street car the threads of its main thoroughfare. It is trowsy, dilapidated and dead. Long rows of its stores are to let. Its streets have fallen into a deplorable condition. It is the flag end of the city, which nobody invests in or moves to, having a choice of another place. Do we want Alameda to be like that? Not much! Now, the way to have a sure thing against it is to adopt the new Freeholder's Charter.—Argus.

Rev. Mr. Fraser of Oakland advised his hearers yesterday to get out at the Republican primaries and defeat the Super-visors. "We don't see how the going to get people nearer to heaven. In fact, they are likely to get worse men in, which would tend to drag the piety in the wrong direction. How does the Supervisory campaign come to be a pulp theme, anyhow?"—Alameda Argus.

Mr. John L. Davis of Oakland takes the pains to inform the Enquirer that he is "out of politics." The information is incorrect, however, as they give a nickel cigar for every nickel dropped in the slot. The question now arises, Is a five cent cigar worth five cents?—San Leandro Standard.

Statements were issued by the men last night as follows:

Pittsimmion-Sharkey will not last more than ten rounds. I sized him up in his first fight. I was in the ring with him before we got half the distance. I still have my punch—don't forget that. I'll be a champion in a few months and no harm. In fact, I think it did me good. I feel stronger and am no doubt much faster than when I tackled the big Akron champion, Alvin Karpis. I'll be a champion with Sharkey, but I am prepared for the fall just the same. I will show him the difference between a good punch and a bad one. Since Sharkey is going to be a lawyer, he'll find plenty of shifts. Well, if this is so, why his finish will come quicker than I thought.

Sharkey—Will you win tonight? Well, that's easy. Pittsimmions may have been a good fighter, but I think I took all the life out of him at the end of the first fight. I was only a novice then, too, but I managed to give him more than enough to eat. I was awarded the decision. I am glad to get a chance at

his duty by the clubs and wheeling interest of the State. It will instill upon all the people the idea that the State's fee is light, and if clubs are to be kept in good standing they must take paid sals for the privilege of holding a race. It is not only from the national association, but road racing is retained wholly by the State association, and races not under their sanction will subject those who ride them to penalty.

Walter Leitch and L. S. Luskfield, J., of the Records Committee of the Capital City Wheelmen have established the following schedule of time, which remains in effect until the next beating of the new records will be established when new records will be established.

Steeplechase, 2 hours; Stockton and return, 1 hour; Stockton, 1 hour 15 minutes; Rockville, 1 hour 15 minutes; Rockville and return, 1 hour 15 minutes; 1/4 mile track, 17 seconds; 1/2 mile track, 27 seconds; 1/4 mile, 21 miles.

best "Pitz" then I don't think I ought to have much trouble tonight. I am in better condition than I was the day before. Ruhlin. I was away off then, but am stronger now than ever before. I don't think I have improved any since our last meeting, and I have a good punch, and I guess I can stand that. I will win inside of ten rounds.

Woodward's pavilion in the contest at Woodward's Pavilion in San Francisco last night. Tim Murphy ended Tim Tremble in the thirteenth round. Toby Irwin and Tommy Coyle fought the twenty rounds, but Irwin was given the decision.

Gun and Rod.

The Point Reyes Sportsman's Club has leased 18,000 acres of splendid cover and

day afternoon, Michael dropped out in the seventh mile, being seized with cramps according to his trainers. Nelson covered the thirty-five miles in 12 minutes 11 seconds.

Edlie McDuffee re-entered the bicycle race night, by at Sorninfield, Mass., Tuesday night, by the name of "Red," and paced against Howard Freeman of Portland, Or., and was defeated by almost a mile in the eighth mile. His time for the fifteen miles was 2:05 1/2, and his time for the fifteen miles was 2:05 1/2.

Among the French middle distance racing men the question of motor pacing is causing no end of trouble. At present most of the pacing is done by major cyclists, three wheels being used, and they themselves by far the fastest pacing instruments available. The opponents of motor pacing, and especially the makers of the calibers, Elkes, Rex, Turpin, and Walters, contend that a pair of pacing

quall land in Marin county at Point Reyes, forming what is known as the O. L. Shaf-

ter estate. The lease calls for a five years' tenancy, with privilege of renewal at the close of the term. The land is in two sections, one lying over toward Bolinas, while the other, a few miles to the north, is in what is known as the Olla district, and fronts on Tomales bay as far as the ocean, taking in part of Liminitor bay.

The estate has long been celebrated as one of the best deer runs in the State, the rigid game laws of Marin having preserved them from the inroads of the pot-smoked Indians, who were wont to make a fine duck water. Sea-birds also make frequent appearances here, and this and Eureka bay being along the only strait where the fish are found, this favorite game bird is found. On the hillsides inland are the quail grounds, while further back is the deer cover. The grounds will be patrolled by numerous keepers to assure preservation of the game.
